University Of Energy and Natural Resources (UENR), Ghana
Bachelor's Degree in Information Technology · Graduated: 2024

TECHNICAL SKILLS

- Linux Systems
- Python & Django
- JavaScript
- HTML/CSS
- Cybersecurity

- SQL Databases
- Cloud Computing
- Electrical Systems

WORK EXPERIENCE

Electricity Company of Ghana – National Service Personnel

Western North, Juaboso | 2023 – 2024

- Assisted in networking Operations and Security Operations, managing and maintaining secure communication systems, ensuring network integrity, and implementing basic cybersecurity protocols to protect data and infrastructure.
- Served on the Revenue Team, assisting with customer service, bill collection, and account resolution, enhancing communication and negotiation skills.
- Gained practical experience in electricity-related fieldwork, including pole works, installation of meters, meter reading, and basic electrical maintenance.
- Collaborated with senior technicians, strengthening understanding of electrical distribution systems and safety protocols.

David Bonbal, Digilect Systems – Internship (ICT and Technical Support)

Kelvin Wallance Sunyani | 2022

- Acquired hands-on experience in CCTV and satellite dish installations, including configuration and maintenance.
- Diagnosed and resolved technical faults related to video surveillance systems and satellite connectivity.

CERTIFICATIONS & TRAINING

- **Ethical Hacking for System Security** - Kelvin Wallance Training LLC
